

Geer's Diversified is the Bay Area's full spectrum provider of external facilities management. Our practical and best of breed outdoor maintenance solutions are specifically designed to have a positive impact on your organization. By providing you with excellent and reliable commercial pressure washing, parking lot cleaning and lawn care engineering, we will help you work more effectively, increase efficiency, reduce risk and positively impact your bottom line.

## Why Geer's Diversified?

Hundreds of companies have selected Geer's since 1989 because:

- We are a premier full spectrum, external facilities management firm that provides a single point of contact for all of your property's needs.
- We move beyond ideas, concepts and trends to provide action-oriented advice, practical recommendations and real solutions to meet your company's needs.
- Our solutions are competitively priced to meet the budgetary needs of the most fiscally conservative organizations. We work closely with you to provide options to deploy the necessary solutions and services while meeting your financial goals and ensuring success.
